LAUNCHING OF THE OHIO

Fifty Thousand People Witness the Battleship Ohio Take Her First Dip Into the Sea.

MADE A BIG WAVE WHEN SHE STRUCK.

BIG STEAMERS NEAR BY Bobbed Up and Down, and the Little Fellows Nearly Stood On End—The President Was There.

San Francisco, May 18.—Mrs. McKinley was so much improved this morning that the president decided to attend the launching of the battleship Ohio. When it became generally known that the president would attend the launching, most of the population of San Francisco and vicinity seemed to be moving toward the Union iron works. Only a few were allowed to enter the enclosure surrounding the ways, but thousands clustered on the bluffs overlooking the works. On the bay shore on the farther side from the ship, of the cove into which the Ohio glided, stands had been erected and these were black with people at an early hour. On the bay the scene was most animated. Every pleasure craft and steamer, sailboat and rowboat that could be pressed into service, hovered around the ship, and these were kept back

extending 3 feet 6 inches above the load water line, and 4 feet below it, having a thickness of 14 inches, or depth of 4 inches, tapering to 7½ inches at the bottom of the belt; and by the casemate armor 6 inches thick, which extends from the side belt to the upper deck, and is worked front and aft to the center of the forward and aft barbette. At the ends of this casemate armor diagonal armor 9 inches thick extends from the sides of the vessel to the barbette gun ports.

In the casemate guns are placed two 12-inch guns, each weighing 1,000 pounds, and two 6-inch rapid-fire guns.

The turrets are driven by electricity; and the motors used for this purpose can revolve one of these great turrets through 360 degrees in one minute. The armor of both the turrets and barbette is 12 inches thick.

Ten of the 6-inch guns are within the casemate, as before stated, two others are on the berth deck forward in 6-inch armored spencars, and four are on the upper deck. Those in the spencars forward and on the upper deck fire directly ahead, and the other two on the upper deck directly astern, in addition to having a broadside fire.

The second battery consists of six 3-inch rapid-fire guns, eight 1-pounder rapid-fire guns, six 1-pounder rapid-fire guns, one 2-inch, and two 3-inch rapid-fire field guns.

A new feature introduced in the offensive power of this ship is the introduction of torpedo tubes. Submerged torpedo tubes are not new abroad, German warships having been equipped with them for a number of years, the Ohio and her class are the first battleships of our navy to be supplied with them; though prior

"It Seems as Though my Back Would Break."

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affright; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—heeding its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.

AN OPEN LETTER TO WOMEN.

"DEAR MRS. PINKHAM:—I have been so delighted with Lydia E. Pinkham's Vegetable Compound I thought I would write and thank you. My system was entirely run down. I suffered with terrible backache in the small of my back and could hardly stand upright; was more tired in the morning than on retiring at night. I had no appetite. Since taking your Compound I have gained fifteen pounds, and am gaining every week. My appetite has improved, have no backache, and I look better than I ever looked before.

"I shall recommend it to all my friends, as it certainly is a wonderful medicine."—MRS. E. F. MORTON, 826 York St., Cincinnati, O.

When a medicine has been successful in restoring to health more than a million women, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

\$5000 REWARD

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we have mentioned in our advertisements, we have deposited with the National City Bank of Lynn, Mass., which will be paid to any person who can show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—LYDIA E. THE STRIKING MACHINISTS

The Effort to Enforce the Demands of the Machinists in Various Cities of the Country.

THE SITUATION AT PRESENT MIXED.

Many Employers Have Granted the Nine-Hour Day and the Eleven Per Cent. Increase in Wages—The Strike Otherwise Threatens to Be General.

Washington, May 20.—The general strike of the employees in the machinery and allied metal trades throughout the country to enforce a nine-hour day with an increase of wages to correspond with the reduction in the hours of labor took effect Monday. Reports were received by President O'Connell of the National Association of Machinists, and other officials, who are in this city, early in the forenoon, indicating that a large number of establishments, heretofore holding out against the demands of the men, were making the necessary concessions. Mr. O'Connell said that it was too early to make any estimate of the number of men out. His original figure was 150,000 men directly affected, and several hundred thousand indirectly. This figure has been largely reduced by the number of agreements reached in the last two or three days.

Mr. O'Connell, while refusing to make any estimates or draw any conclusions until later in the day, said the reports so far received were of a very encouraging nature.

At Cincinnati.

Cincinnati, May 20.—Although the strike of machinists was not expected to be inaugurated until 10 a.m., processions were formed as early as 7:30 o'clock and marched to the larger manufacturing concerns and called the men out. The response was quite general, even among employees not members of the machinists' association, who had given no intimation that they were in sympathy with the strike. Some of these men later explained to their employers that they went out as a matter of policy, and not of principle. Whether they will return to work remains to be seen.

New York and Jersey City.

New York, May 20.—At the local headquarters of the central executive board of the International Association of Machinists it was said to-day that not more than 3,000 out of 12,000 machinists in the New York district were on strike. Many of the employees in New York agreed to the workmen's request for a nine-hour day.

In Jersey City the only men on strike were about 40 men employed in the small repair shops of the Central Railroad of New Jersey.

At Detroit, Michigan.

Detroit, Mich., May 20.—Up to 10 a.m. 17 local machine shops, employing a total of 150 men, had granted the demands of the International Association of Machinists and their employees were at work. Five hundred and fifty machinists employed in other shops are out on strike.

Not Many Idle at Pittsburgh.

Pittsburgh, Pa., May 20.—About 100 machinists at the McKee's Rocks plant of the Pressed Steel Car Co. struck for a nine-hour day. The places of the strikers have been filled by laborers employed about the mill. Less than 100 machinists are idle at other plants in the city, all but four firms having signed the scale.

Fifteen Hundred Idle.

Wilkes-Barre, Pa., May 20.—The machinists, blacksmiths, car repairers and laborers employed at the shops of the Central Railroad of New Jersey, the Lehigh Valley Railroad Co., and the Dickson Manufacturing Co., went out on strike. Fifteen hundred men and boys are idle.

Every Shop in Scranton Idle.

Scranton, Pa., May 20.—Every machine shop in Scranton is idle in consequence of the strike for a day of nine hours and an increase of 11 per cent. in wages. Altogether, 3,000 men quit work, and these, with the Lackawanna railroad machinists and car shop men out for a week past, make nearly 5,000 on strike in Scranton.

The Dickson works posted a notice agreeing to give nine hours a day and arbitrate the wage issue. The men ignored the notice in obedience to international instructions.

Six Hundred Idle at Toledo.

Toledo, O., May 20.—Machinists to the number of 600 are idle here, their employers having failed to comply with the demands of the International association. The strikers are fairly well organized and hope to secure a complete victory here.

About Sixty Per Cent. Out.

Boston, May 20.—About 60 per cent. of the machinists employed in Boston struck to enforce the demand for a nine-hour day with ten hours' pay. The number of men involved is placed at about 1,500. Shops employing about 650 men have granted the new scale, and the firms at which the remaining men in the trade work have been given until noon to decide the question.

Twelve Hundred Out at Cleveland.

Cleveland, O., May 20.—About 1,200 machinists employed in this city are on strike in order to enforce their demand for a nine-hour working day with ten hours' pay. The strikers

are orderly and quiet. No trouble of any kind has been reported.

Helpers Joined the Machinists.

Milwaukee, Wis., May 20.—About 1,600 machinists responded to the order of President James O'Connell of the National Association of Machinists, and went on strike in the various plants employing machinists. The men were joined by several hundred helpers.

Only Two Shops Affected.

York, Pa., May 20.—Only two shops in this city are affected by the machinists' strike. Two hundred men in the employ of the York Manufacturing Co. and S. Morgan Smith quit work.

At Plainfield and Elizabeth, N. J.

New York, May 20.—At Plainfield, N. J., fully 1,000 machinists and helpers have struck. They were employed in the shops of the Scott Printing Press Co., the Potter press works, the Campbell press works and the Aluminum plate and press works. At Elizabeth, 300 machinists employed in the shops of the Central railroad of New Jersey are out.

Joined the Tube Workers.

Reading, Pa., May 20.—The only members of the machinists' union in this city are employed by the Reading Iron Works Co., and they are out with the striking tube workers. Sixteen hundred men quit two weeks ago, and were afterward locked out by order of the president of the company.

Not Extensive at Philadelphia.

Philadelphia, May 20.—It is estimated that not more than 1,000 machinists have quit work in this city because of the refusal of their employers to grant a nine-hour day.

The firms thus far affected are all small

and are not extensive.

At Buffalo.

Buffalo, N. Y., May 20.—Lowering clouds that threatened rain, and a wind that blew in fitful gusts marked the opening hours of dedication day at the Pan-American exposition. There was a partial clearing of the sky at 9:30, which gave half-hearted promise of further improvement during the day. The holiday crowds were astir early, and the earlier trains brought thousands of recruits to their ranks. The exposition grounds and the business districts of the city, where the military and civic parade formed, were the centers that attracted the largest numbers, while the streets and avenues connecting the two swarmed with animated crowds. The Temple of Music, where the formal exercises of the day were held, was the center of activity, being filled with a gathering of notable and representative citizens and visitors.

Congratulatory Telegrams.

President Milburn received an ovation when he arose to speak, and it was some time before he could secure attention. He began by reading the telegrams and cablegrams of a congratulatory nature received during the day, commencing with that of President McKinley.

Telegrams or letters of congratulation were also read from the governor-general of Canada, the president of Hayti, Colombia, Peru, Ecuador, Nicaragua, Uruguay, Paraguay, Argentina and Santo Domingo, and the governor of Jamaica and Martinique.

The Speakers.

There was another cheer when Mayor Diehl was introduced by President Milburn.

Robert Cameron Rogers was next presented by President Milburn, and read his poem dedicated to the exposition.

The Orpheus society sang "Salve Liberte," accompanied by an orchestra, and at the conclusion Vice-President Roosevelt was presented, and a storm of applause gave him greeting as he came forward.

The speech of Vice-President Roosevelt aroused a high spirit of enthusiasm, and he was wildly cheered as he closed and took his seat.

Addresses were also made by Gov. Timothy Woodruff and Senator Lodge.

Robbed at a Dinner Party.

Chicago, May 20.—While in the midst of friends, all members of an exclusive dinner party, given in the palm garden of the Auditorium Annex, Sunday, Mrs. Lingle, wife of H. D. Lingle, a prominent merchant of Hooperston, Ill., was robbed of diamonds valued at \$800, presumably by a "social highwayman."

Chicago.

Chicago, May 20.—Although Mrs. McKinley's condition has greatly improved, her physicians have named a week or ten days as the shortest possible time in which she can gather strength to make the trip across the continent. The immediate members of the presidential party will, therefore, remain here for that length of time, though it is probable that the others will leave for the east during the present week.

THE PRESIDENT'S PARTY.

It Will Be Several Days Before They Will Be Able to Leave San Francisco.

DEPENDS ON MRS. M'KINLEY'S HEALTH.

Secretary and Mrs. Hay and Secretary Long Will Not Wait for the Rest—Mrs. McKinley Had a Good Night and Appears on the Road to Recovery.

Three Others Are Dead.

Death List of the Youngstown (O.) Steel Foundry Accident Now Increased to Five.

Youngstown, O., May 20.—Three more victims of the accident, Sunday evening, at the Ohio plant of the National Steel Co., died of their injuries during the night. They are: Thomas Maxwell, John Sultercz, Paul Washaw.

Three other employees who were injured will recover. The exact cause of the explosion has not yet been determined, the supposition being that either the bottom of the converter dropped out or water got into the wind box.

ARMORED TRAIN DYNAMITED.

Boers Dynamite an Armored Train South of American Siding, Killing Maj. Heath.

London, May 20.—Lord Kitchener

reports to the war office under date of Pretoria, May 18, as follows:

"An armored train has been dynamited south of American Siding, Maj. Heath, of the South Lancashires, was killed."

DUE TO DOMESTIC TROUBLE.

Attempt of Elmer Lane to Murder His Wife and Commit Suicide at Osceola, Ia.

Osceola, Ia., May 20.—Elmer Lane

broke in the door of the residence of his wife here, cut her throat and then attempted to commit suicide. Mrs. Lane is in a critical condition. Lane may recover. The couple had had domestic troubles, and she had applied for a divorce.

Life Lost at a Fire.

St. Louis, May 20.—At a fire which

caused about \$100,000 damage among the furniture houses, on Olive street, between Eleventh and Twelfth streets, Saturday evening, Edward Green, assistant foreman of Engine Company 22, was instantly killed by falling from a line of hose led to the roof of the building, and down which he was descending, having been cut off by flames from the stairway. Four of Green's companions made the descent in safety.

Bloomington Will Celebrate.

Bloomington, Ill., May 20.—The

Bloomington jubilee, to fitly celebrate the rebuilding of the city after the conflagration of June 19, 1900, which

destroyed property worth \$2,000,000, will last five days, and is being laid out on elaborate lines. It will open June 18, and will end, including Saturday night, June 22.

In Honor of Confederate Dead.

Columbus, O., May 20.—Exercises in honor of the confederate dead, who rest in the cemetery near Camp Chase, were held, Sunday, by the southern members of the sovereign camp of Woodmen of the World. H. F. Wilson, of Mississippi, presided, and many addresses appropriate to the occasion were made.

Heavy Suit Against a Convict.

Laporte, Ind., May 20.—John Marshall Wilson, former treasurer of Shelby county, convicted of defrauding the county, and serving an indefinite sentence in the Michigan City prison, has been made defendant in an action to recover \$539,000 by officials of Shelby county.

man Henry D. Allen. It is stated
that Mr. Allen will not be a candi-
date for re-election, but will be a
candidate for Governor in 1903.

The announcement of David
Carter for jailer appears in this is-
sue. Mr Carter is a prominent
farmer, hard working and honest.
He would make a good jailer. He
has numerous friends all over the
county, who have pledged him
their support. He is a strong man
and will make a strong race.

The Democrat, Paducah's new
daily, is one of the brightest pa-
pers that comes to our desk. It
is an up-to-date, newsy, metropoli-
tan journal, beautifully printed
and ably edited. It is meeting
with almost universal commendation.
With such gifted editors as
Woodson and Melton it is bound
to succeed.

It is reported that Senator De-
boe's visit to New York has been
in relation to a copper mine located
in Mexico, and in which he is
interested. A. F. Head, formerly
of Louisville, is said to be a pro-
moter of the company, with head-
quarters in New York, and through
him, it is understood, senator
Deboe holds stock. The Senator
is said to believe that the property
will prove valuable.

Marion F. Pogue, nominated for
representative, is every inch the
gentleman he appears to be. He
is a young lion of the Democracy
—one of the "scrapers" of bloody
old Crittenden. In the recent hot
campaign he has labored unceas-
ingly, for the success of Democ-
racy, gaining a warm place in the
hearts of Democrats. That he is
a man of splendid character was
never disputed, and is proved by
the endorsement given him by his
home people. The gentlemen de-
feated by Mr. Pogue are among
Crittenden's best citizens, and his
victory over them is itself a strong
testimonial in his favor.—Living-
ston Banner.

BLACKFORD.

Movements of People of Webster's Flourishing City.

Just across Tradewater river, in
Webster county, some twelve
miles from Marion, a prosperous
little city known as Blackford lives
and constantly increases in popu-
lation, wealth and commercial im-
portance. Her citizens are men of
enterprise and vim, ever watchful
of the interest of their community.
The Illinois Central has just
completed a fine depot, one of the
largest and prettiest on this division
of the road, at this place. This shows
that this great trans-
portation corporation, that is the
life of commercial affairs in this
part of the country, regards Black-
ford as a shipping point of great
importance.

The Kentucky Western railroad
recently built runs from Blackford
to Dixon, a great deal of traffic is
done over this road.

The merchants of this thriving
little trade center are wideawake
business men and all enjoy a good
patronage. Fertile valleys and
hills rich in minerals surround
Blackford. With its progressive
citizens, with its remarkable nat-
ural environments, with its invaluable
commercial facilities, Black-
ford is bound to grow in size,
wealth and influence. May nothing
prevent its rapid advance-
ment.

The PRESS has secured the ser-
vices of an able correspondent
and each week those of our read-
ers interested in Blackford and
her citizens may keep in touch
with the affairs of that place through
the columns of the PRESS.

The farmers around us are all
looking happy since the good rain
we had Saturday.

Will Wallace, of Union county,
was here Tuesday on business.

Messrs W. E. Bourland and Geo
Towery, of Dixon paid us a flying
visit over the K. W. Sunday,

Quite a number from here at-
tended church at Repton Sunday.

A musical was given at Dr. D.
T. White's Friday evening and
was greatly enjoyed.

Miss Berry Brooks, of Robards,
is visiting Mrs. C. I. Gooch this
week.

Mrs Susan Crumbaugh and Miss
Holloway, of Eddyville, are guests
of Mrs. J. K. Bean.

Mrs C. I. Gooch was taken sud-
denly ill Thursday but has recov-
ered.

Do you know why Tim Bean
does not use the patent grass mor-
ner? Why, because he has the use
of a better "rig."

A. W. Wilborn left here Saturday
for Marion to join a party going
to Ardmore, I. T.

Will Crowell seems to realize
more than enjoy the statement, "I
looked and there was another
there."

Our town is on the boom at pres-
ent. Five new buildings are go-
ing up and several others are be-
ing repaired. All we need now to
make us a full fledged town is a
flour mill and tobacco factory.
With the excellent wheat and
tobacco country around us, together
with the junction of the I. C. and
K. W. railroads, an abundant sup-
ply of water, it seems that both
would be splendid investments.

Fire at Dixon.

Dixon, May 18.—Fire broke out
in the Hardwick Drug Company's
store and spread to the large gro-
cery and hardware house of Ram-
sey & Jackson, totally destroying
both of them. The Hardwick
Drug Company's loss is \$7000 and
with \$5,500 insurance; Ramsey &
Jackson's loss is \$8,500, with \$5,
000 insurance. Dr. Marshall lost
all of his instruments and fixtures,
amounting to \$600, and had no in-
surance. Williams & Bourland,
dealers in harness and buggies,
loss \$500, no insurance.

WILLIAM H. CLARK

Announces His Candidacy For County Attorney.

William H. Clark announces as
a candidate for county attorney in
this issue, subject to the action of
the Democratic party. He is a ci-
tizen of Marion and is a son of Dr
J. R. Clark, one of the oldest and
most influential residents of the
city. Mr. Clark is a young man
possessing admirable qualities. He
is well known throughout the
county. Being a graduate of the
famous old Center college of Dan-
ville his qualifications as an attor-
ney can hardly be questioned. He

WILLIAM H. CLARK.

has been practicing law for more
than two years, and is the youngest
member of the Marion bar. He
is a brilliant speaker and is cer-
tain to meet with success in the
legal profession. He is a steady,
honest, wideawake young man and
is very popular. His many friends
have urged him to make this race,
feeling assured that no one is bet-
ter fitted for the office.

The duties of this office would
be discharged in the most satisfac-
tory manner should Mr. Clark be
chosen by the people as county
attorney.

A STRANGER

Suffering with Smallpox Confined in Pest House.

Thursday a stranger called on
Dr. J. O. Dixon at his office seek-
ing medical attention. Dr. Dixon
examined him and found he was
suffering with smallpox, or some
kindred disease. He notified the
county judge, who at once had the
sick man removed to the pest
house. The board of health was
also notified. Friday morning Drs
Dixon and Frazer examined the
patient and pronounced the dis-
ease smallpox. The man gave his
name as J. E. Hays, and said he
had been confined in the pest
house at Smithland, but had been
discharged by the physicians and
given a certificate of health show-
ing that he had recovered from the
loathsome malady. Dr. Frazer tel-
ephoned to Dr. Dooley at Smith-
land, who informed him that Hays
had been confined in the pest
house but had been discharged, as
the patient had stated. Hays is a
young man and is said to be an
ex-convict. He is either suffering
from a relapse, or had not recovered
from the disease when dis-
charged from the Smithland pest
house.

RODNEY, Ky., May 20, 1901.
John Karner and others:

I am very grateful for your kind
and complimentary call upon me
to make the race for the Demo-
cratic nomination for the office of
County Judge.

Did I feel that the best interests
of the party demanded that I
make the race, I would not hesitate
to become a candidate, but I
am satisfied from the list of an-
nounced candidates for the various
offices that the democratic banner
in the coming election will be in
safe and victorious hands. For
these reasons I do not believe I
should complicate the situation by
entering the race.

I am confident we can win the
race this fall, and will do all in my
power, and by all honorable means
to bring about this end.

Again thinking my friends who
have urged me to make the race,
I am,

Very truly,

E. L. Nunn.

OFFICIAL CALL

For Democratic Primary Election to be Held June 8th.

By order of the Democratic com-
mittee of Crittenden county, a
primary election is called to be
held on Saturday afternoon, June
8, 1901, between the hours of 1 o'
clock, p. m., for the purpose of
nominating Democratic candidates
for the various county offices, for
the coming November election.

Polls will be opened at 1 o'clock
p. m., on that day at all the regular
voting places in Crittenden
county, and the primary will be
conducted under the rules and reg-
ulations of the Democratic Com-
mittee, and not under the statutes
of Kentucky, and will be an open
primary and not by secret ballot.

All candidates for office are re-
quired to notify the chairman of the
county committee, in writing,
of their candidacy, on or before
Thursday, the 30th day of May,
1901.

BETWEEN THE RIVERS.

DEAR OLD PRESS: It has been a
number of years since I first glan-
ced over your columns. I was not
as old then as I am now. I used
to send items to the PRESS that the
kind editor thought suited the
waste basket or else they never
reached the office.

I am now located four miles be-
low Iuka. The most of this coun-
try is still in the woods; land can
be bought for two dollars and a
half acre; but the most of this
land is hilly. The hills are full of
spur, iron, lead, and zinc.

This country being surrounded
by rivers keeps a great many peo-
ple from finding cheap homes, al-
though it is fast being settled up.
This land produces well—tobacco,
wheat, corn and oats is raised in
abundance.

The most of the people here are
kind hearted Democrats. A few
Republicans peep from behind
their destiny with smiles as broad
as a razor back and say, "We're
gaining ground," but as we have
no intention of discussing politi-
cials, we will let Billings smoke his
own cigar, and if Modoc is elected
Squire we will take a front seat
and await the decision of the
court.

Osteopathy.

[From Our Special Correspondent].

FRANKLIN, Ky.,

May 21st, 1901.

ED. PRESS: What is osteopathy?
is the question most frequently
asked.

It is many things in one.
It accomplishes a variety of re-
sults by simple methods.

It uses the bones as levers to
relieve pressure on nerves, veins,
and arteries that should not suffer
pressure.

Osteopathy can cope with all
diseases.

The medicines used are food, air
and water.

The curative properties and pow-
ers of the body are within the bo-
dy itself.

Take the stomach, its secretions
are controlled by certain nerves
and nerve centers. If these do
their work there is health—if not,
illness; where they do not there is
an obstruction. Osteopathy re-
moves it.

"Nerve force," "blood force,"
are the two forces which make
health.

Disease is nothing more than an
obstruction between nerve force
and blood force. The osteopath
watches to see that the machinery
of the body works right.

Does an engineer throw a gallon
of water into his engine is a bolt
gets loose? He ties the bolt.

The osteopath studies the hu-
man machine as a machinist, and
puts it mechanically in harmony.

This treatment gets behind in-
numerable ills. This makes the
osteopath specialist in anatomy.

He becomes accustomed to the
quick detection of the disturban-
ces of nerve centers, or circula-
tory structures.

Osteopathy is in its nature a

PHENOMENAL RECORD.

How a Bright Northern Boy, with Southern Sympathies, Built Up a Big Business.

The eleventh annual United Confederate Veterans' reunion, which will occur at Memphis, Tenn., May 28, 29 and 30, promises to be one of the most unique gathering in the history of the association. Scores of men of national reputation will participate in the exercises planned by the various committees, but among all of them none will be entitled to more consideration than Mr. P. P. Van Vleet, president of the Van Vleet-Mansfield Drug Co. of Memphis, whose endeavors to bring the reunion to Memphis were backed by a cash subscription of \$750, and whose career illustrates most forcibly what a resolute, ambitious boy can accomplish in this country of ours.

Mr. Van Vleet was born in Kalama-zoo, Mich., in 1849, the lineal descendant of one of four brothers who emigrated from Amsterdam, Holland, in 1662, and took up affairs on Manhattan Island long before the English invaded New Amsterdam. After graduating from Kalama-zoo college, young Van Vleet, with only a few hundred dollars in his pocket, cast his lot in the south, with whose political aspirations he and his father had always been in sympathy, landing at Memphis for the first time in May, 1871. Shortly afterward he secured a position with

Gay little low shoes have red heels, the front part of the shoe, in which the eyelet holes for the laces are set, being red and the laces light drab silk.

A pretty combination for a stylish summer hat is a white fancy straw trimmed with three or four shades of yellow, either in tulle or chiffon, and flowers, and a black velvet bow at one side.

Foreign Systems Seem Puerile When Compared with Our Work of the National Dead-Letter Office.

(Special Washington Letter.)

THE illiteracy of Europe rests as a heavy burden on the dead letter office of this republic. Upwards of half a million letters annually come to this country from Europe with addresses which are insufficient, illegible or undecipherable. They must be returned to the countries whence they come. Consequently this European illiteracy is costly, not only to the countries whence the misdirected letters come, but also to us.

The fact is well known that our own people furnish employment to hundreds of employees because of their inability to properly address their communications; but the illiteracy of foreign correspondents is incalculably greater than that of our own people. In our republic the majority of the errors are caused by carelessness, but ignorance is at the bottom of the enormous number of errors committed by those in foreign countries.

Compared with our own perfected dead letter office system those of foreign countries seem to be in their infancy. Many evidences are shown by the experiences of our officials, indicating that the foreign governments do not attach such importance to the delivery of obscure addresses as our government has always manifested. For example, when Levi P. Morton was minister to France, a letter addressed "Levi P. Morton, Paris, France," was returned to this country marked, "Inconven;" that is, "unknown." And yet the American minister was living in Paris at one of the leading hotels. No effort was made to deliver that letter, or it could have been delivered.

Many letters from this country addressed to Walter Besant, Algernon Swinburne, Alfred Austin, and other

for the word "taxee," meaning "taxed" or extra rate. The Italians are very thrifty people, and it often happens that the sender in that country prefers to leave the payment to the addressee, who, in America, is usually of the same nationality. On delivery of the letter he refuses to receive it and pay the ten cents demanded. There may be nothing important in it, and he is not willing to squander that amount of money on an uncertainty. His friend or relative having written it, is safe to conclude that the writer is well.

Hundreds of letters, though actually delivered to the intended recipients, are returned to Italy every year. At least 75 per cent. of the mail matter sent from that country to the United States is not paid in advance. What has been said on this point applies in a somewhat less degree to the Swedes, who are likewise a thrifty people. It is observed that immigrants from abroad retain their thrifty habits on this side of the water. In the next generation, however, they lose them entirely. Their sons and daughters have all the wants and requirements of Americans. The continental peasant is content to live on bread and potatoes, but his American-born children must have meat three times a day.

Some of the articles found enclosed in parcels from abroad, which, unlike letters, may be opened, are very odd. They will often contain such things as one sock, one shoe or one glove, the customs regulations forbidding the sending of pairs of such things. Pieces of lace and valuable embroidery are discovered wrapped up in the newspapers which are devoted to destruction when not delivered. These are disposed of at the annual auction sale, held at the post office department. Rosaries and crucifixes are sent in a similar fashion in great numbers. At every yearly sale hundreds of these are disposed of, many of them having been blessed by priests and forwarded by people in Catholic countries for use by friends in our country.

Comparatively few of the foreign letters which reach our dead letter office can be delivered to the persons addressed, because it is not permissible to open them. If one of them

STORY OF AN UMBRELLA.

Woman Lost It and Tried to Get a German Repair Man to Recover It.

The woman got off a Columbus avenue car. She was good looking, relates the New York Times.

"Madam! Madam! Here! Here!" shouted the conductor as with the instinct of his tribe he jerked the bell twice and then brandished an article wildly in his arms. "You've left something behind."

"Madam, I beg of you one moment," called out the passenger whose whiskers had given him standing in Wall street. A messenger boy on the back platform whistled.

But the woman didn't seem to hear, and kept on a jaunty course. She had walked two blocks when she stopped on the curbing feeling reflectively under one hand with the other. "I declare I have lost my umbrella," she said with English accents of domestic manufacture. "I wonder where I could have left it." Her eyes began a minute scrutiny of that part of the avenue she hadn't traversed.

"That's strange," she muttered. "I must have left it in the cars. I don't see it anywhere about." A car going in the opposite direction to the one she had left slumped along with the grumble of a surly fullback. The woman stopped it and got aboard.

"Fare, please," said the conductor. The woman held a nickel diplomatically between thumb and forefinger.

"Found any umbrellas, conductor?" she demanded.

The conductor hadn't.

"I don't think I will take this car," the woman decided. And she got off.

Three other cars yielded no more umbrellas. Then the woman looked with the eyes of introspection at the top stories of the buildings about her.

"Strange," this, with eyes upon the fourth floor.

"Mysterious," at the third.

"Idiotic," the second.

"The very thing," when the optical elevator reached the ground floor.

"Umbrellas recovered while you wait. I'll wait," said a voice from the midst of laces and skirts that fluttered toward K. Schmittel's, whose sign read: "Umbrellas Recovered While You Wait."

A moment later mild Teutonic eyes looked through milder spectacles at a fluttering feminine question mark.

"Do you recover umbrellas here?"

"Das ist it, 'tis it."

"While you wait?"

"Ja, freilich."

"Then I'll wait."

"But yo ist your umbrubberla, madam?"

"Why, how do I know? It's a real pretty silk one with a carved ivory handle, that Willie sent me from South America, or is it in Australia where they have elephants? I must have left it in the cars. I'd feel very badly to lose it, and I am willing to give you a nice little sum if you'll recover it for me."

"Was take you me for once, a detective?"

"A detective?"

"Ein man who things recovers?"

"Well, you recover things, don't you?"

"Ich things recover, umbrubberla, but I don't recover them."

"Oh, indeed."

The woman abruptly rustled out. "I always thought those Germans were stupid," she said as she cautiously peered into an ash can for the umbrella that wasn't.

TO RENOVATE FEATHERS.

The Way to Live Up and Thoroughly Cleanse the Contents of Pillows Case and Mattress.

Feathers that have become dead and heavy from age or any other reason may be renovated and made light and fluffy by the following process:

Choose a bright, clear day, when there is a good breeze stirring, for the work, says Ladies' World of New York. If there are three pounds of feathers to renovate, make a bag out of thin muslin that will hold five pounds; stich all around with the exception of one-half across one end; now rip a seam in one end of the pillow which contains the feathers to be renovated of the same size as the one left in the bag; then sew the edge of the bag to the edge of the pillow, and then shake all the feathers from the pillow into the bag. Sew up both the openings. Shave a third of a bar of some good white soap into a bowl, add a tablespoonful of powdered borax and enough boiling water to dissolve the whole, and then pour the mixture into a boiler of soft cold water. Place the boiler on the stove and put the bag of feathers in and boil for five or six minutes; with a clothes-stick turn and lift the bag up and down constantly while it is in the boiler. Take it out and rinse in two waters. Use cold water and plenty of it. Do not rub or wring it, but drain and squeeze out all the water possible and hang in a shady place to dry. While drying shake the bag frequently.

Launder the pillow-tick right side out; then rip open the seam, turn it wrong side out and pick off the little balls of down and feathers. Put the feathers back into the pillow in the same way that they were taken out. If handled in this way there will be no down and feathers flying around while the work is being done.

If feathers have the least smell of decomposing skin or flesh it indicates that they ought to be steamed and properly dried.

NEWS OF THE COUNTY.

NEW SALEM.

Charley Slaydon and family of Hamp-ton were guests of Erwin Brouster's family Saturday and Sunday.

Dr. P. R. Shelby, wife and daughter, of Princeton, were callers in this section Sunday.

J. H. Brouster and wife were in the Sheridan neighborhood last week visiting a sick relative, of Mrs. Brouster's.

Samuel Wolford was the first farmer in this section to set tobacco this year. If we could be blessed with a good season about the 25th of this month at least two thirds of the tobacco crop would be set.

Mesdames Laura Hayden and Mattie Franklin, of Salem, were visiting the sick in this section Sunday.

The railroad through Livingston and Crittenden is still on the boom. We understand they will commence the survey this present week.

The crop prospects for the present season are anything but flattering, with out little or no rain in the past month, with a bad stand of corn, and not over fifty per cent of a wheat crop sown, and the crop not more than fifty per cent, in quality, makes it a gloomy start for a living to the tillers of the soil.

John H. Conyers and family spent the past week the guests of friends in Livingston county.

Felix Tyner went to Paducah Sunday and brought back a steam saw mill, and it will make its first set on the farm of W. H. Tyner.

Miss Bessie Fox, of Emmaus, was the guest of her aunt, Mrs. Jose Tyner, last week.

The wheat crop is heading out, and does not look so promising as it did two weeks ago; the oats crop is very poor, owing to the long dry spell.

Mrs. Dunning, of Salem, was in this section last week visiting the sick.

Miss Cooksey, who had her leg broken at the home of Lewis Terry, two weeks ago, was moved to the home of widow Nancy White last Monday, and is doing very well.

Hogs as dying with cholera in this section.

Old uncle John Kirk has been sick the past month but is better.

Tom Harpending has a good milk cow for sale cheap,

STARR.

The feather man has been in our midst.

Thomas Dollins, of Marion, was here Friday.

We now have a broom establishment running on full time, J. B. Bradley is proprietor.

Tobacco plants are going to be a little scarce here.

C. W. Crayne and J. M. Andrews have bought the Crow farm near this place.

Luther Gass is a candidate and says one vote will elect him.

Ed Wilson is in very poor health at this time.

Henry Hamby is quite sick with chills and fever.

J. A. McCormick had a log rolling last Friday.

An immense corn crop has been planted in this community this year.

Farmers want more corn and less tobacco, and they are right about it.

DYCUSBURG.

Mr. Kerr Waddell, of Liverpool, England, and W. S. Dycus, of Kuttawa, were visiting S. H. Cassidy and family last week.

H. C. Rice, of Kelsey was in town Saturday.

A. Boaz has finished repairing and building some additions to the residence of F. B. Dycus.

Messrs Barnes & Morton, promoters of the railroad from Carrsville via Salem and Dycusburg to Kuttawa, passed through our town going to and returning from Kuttawa, looking over the proposed route for the railroad. They talk very favorably of the new road. This route passes through the rich mineral and farming lands of S. H. Cassidy & Co., known as the Oklahoma, and also the mineral land of Dr. Graves and Mr. Hayward, known as the Furnace lands.

A large number of our people attended the Paducah carnival.

We are informed that our livery stable men have formed a trust and all are under one management now.

Mrs. Kate Harris and the children of W. S. Dycus of Kuttawa, were guests of F. B. Dycus and family last week.

J. M. Burton died at his home two and a half miles below Dycusburg, on the river. He had pneumonia.

Mrs. Anna Newcomb and children have returned to Washington.

Mesdames J. C. Griffin and Lula Branagan are visiting friends in Livingston county.

CHAPEL HILL.

Horace Williamson lost a mare last week.

Corry Miller and company went to Pinekneyville Thursday on a fishing expedition.

W. H. Bigham is a cripple. Wednesday morning while he was walking along a little stick flew up and struck him on the calf of the leg and he could not put his leg to the ground.

Doctor Cook, of Crayneville, passed through our midst Wednesday.

Mrs Horace Williamson and daughter are on the sick list.

B. F. Walker went to Crayneville to see the spar mines.

Wheat in this neighborhood is looking fine, with a little rain soon a full crop will be harvested.

No tobacco ground fixed as yet, plants too small.

P. M. Ward's school closed at Crayneville with good results.

Henry Minner, of Eddyville, was here at the primary to cast his vote along with the Democrats.

Mrs. Holsapple and wife, from Lyon county, was visiting Wm. Lewis, of this precinct; Mrs. Holsapple is a daughter of Mr. Bewis.

Ben Allen and wife of Oak Grove was the guest of H. S. Hill's Sunday.

M. G. Jacobs and Charlie Clement, and Eura Bigham were guests of W. H. Bigham Sunday.

Mrs. Ford of Crayneville got hurt very badly while milking from a fall.

Mrs. Margaret Minner will visit her daughter, Mrs. Mary Walker, of Hawesville, her visit will be extended for several months.

Eura Bigham wants to sell a good mare.

Doc Elder went to Marion Tuesday.

The Doctor is the oldest man in our precinct. He is in the neighborhood of 90 years and can get on a horse and go to town as quick as any man. He is in excellent health and can hitch up a horse and plow as quick as any old gentleman can.

Will Hall is painting L. M. Hill's residence.

Miss Mollie Hill returned home from a two weeks visit in Hurricane last Saturday.

Sunday was our regular preaching day at Chapel Hill, but the pastor is absent in California.

Mrs. Mollie Lewis, from Livingston county, is visiting relatives in this neighborhood.

T. M. Hill of this section will plant 50 acres of corn.

Jeff Yandell got word that his daughter, Mrs. Somers of Texas is very low and not expected to live. Mr. Yandell is in a great deal of trouble.

Our farmers in this neighborhood are in good shape. Some have plowed over their corn and are ready for their tobacco ground; plants too small to set; some have sown their stock peas and they are up fine. Prospect flattering if we have a good rain.

H. S. Hill will shed two sides of his tobacco barn this fall.

SUGAR GROVE.

Bro Barbee filled his appointment here Sunday.

R. G. Phillips and Miss Gertrude Nunn of Marion attended church here Sunday.

Miss Mendoza Deboe is visiting her sister, Mrs. Thomas of Marion this week.

Miss Laey James, of Pine Knob attended church here Sunday.

John Mayer of Shady Grove, was here Sunday.

Howard Phillips has returned from Webster county.

Samuel Phillips spent Sunday evening in the Bellville neighborhood.

Window shades, all sizes and colors, at Boston & Walker's.

CARRSVILLE.

Dr. O. R. and Will Bridges attended the street fair in Paducah Wednesday and Thursday.

Mr. and Mrs. Holland, of Tenn., are visiting the family of E. S. Earles.

Rev. E. M. Steen of Golconda preached two excellent sermons at the C. P. church Sunday.

Our local teachers are beating the bushes for schools.

We are informed that our livery stable men have formed a trust and all are under one management now.

Mrs. Kate Harris and the children of W. S. Dycus of Kuttawa, were guests of F. B. Dycus and family last week.

J. M. Burton died at his home two and a half miles below Dycusburg, on the river. He had pneumonia.

Mrs. Anna Newcomb and children have returned to Washington.

Mesdames J. C. Griffin and Lula Branagan are visiting friends in Livingston county.

IRON HILL.

Nervous Prostration.

Mrs. Lettie Fisher says: "I had nervous troubles for years, which at times completely prostrated me and made life not worth living. I tried many physicians and no end of nerve and other remedies without relief." Mr. M. J. Crews, merchant, Maloy, Iowa, persuaded me to try Morley's Sarsaparilla and Iron. The very first bottle went to the right spot, for I felt a complete change, and now, after using six bottles in all, I am perfectly well. For sale at Ormes drug store.

Chronic Sore Leg.

Mr. J. Richardson had a running sore on his leg for twenty years. Tried doctors and medicines without end or any permanent good. Mr. L. B. Nunnally, druggist, of Hartford, Iowa, recommended Morley's Sarsaparilla and Iron to cure the cause of the sore and make it heal from the inside. A few bottles cured his leg and put him in better health than he has been in for 20 years. Sold at Orme's.

SUPREME IN ITS BEAUTY

PAN-AMERICAN EXPOSITION TO BE A MAGNIFICENT SURPRISE.

Birdseye View of the Great Group of Splendid Architectural Works—A Wonderful Setting of Fountains, Pools, Plants and Flowers.

It is promised for the Pan-American Exposition that it will surpass in beauty any previous exposition in the world's history. It is also expected that it will rival its predecessors in many other ways, for at no time have such wondrous achievements in all arts, such perfection in the hundreds of trades, been attained. But the purpose of this article is to treat, in a general way, of the plan of the Exposition, the symmetry of arrangement and the exterior beauty that represents the careful expenditure of several millions of dollars. Accompanying this article is a birdseye view of the Exposition plot, showing the magnificent work in its complete state. The view is from the south and shows an area one mile and a quarter long and half a mile wide, there being 350 acres in the inclosure. In the immediate foreground is a portion of Delaware Park, one of the famous beauty spots of Buffalo. The view shows the Park Lake, with the North Bay at the left, and in the left foreground, south of the bay, may be seen a portion of the Albright Gallery of Art, a beautiful granite building of white marble, the gift of John J. Albright of Buffalo, and costing over \$400,000. North of the Bay is the New York State Building, also a permanent structure of marble. These two buildings are in the style of Greek temples, one containing replicas of the Parthenon and the other
